

UV-resistant, removable tape. For short-term masking, everywhere.

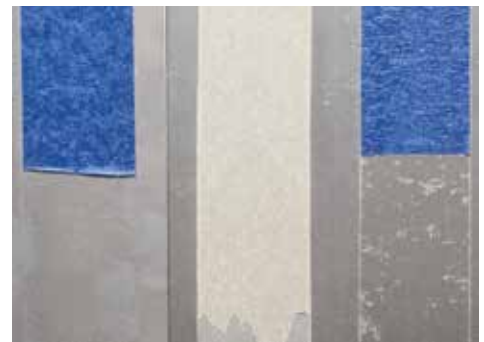

3M™ 14-Day Industrial Multi-Surface Masking Tape UV14

Whether you're painting, wrapping, bundling, sealing, labelling or protecting surfaces indoor or outdoor, there's a cost-effective solution.

Created by 3M's adhesive and tape engineers to be a go-to, multi-purpose workhorse, 3M™ 14-Day Industrial Multi-Surface Masking Tape UV14 can take extended exposure to sunlight and weather without leaving a mark behind.

- Clean removal and colour fastness even when exposed to sunlight for 14 days!
- No noticeable paint bleed when tape is removed after short term painting.
- Unwinds easily and tears freely by hand
- Blue color is easy to spot
- Use for non-critical masking applications on a wide variety of materials and substrates.

A comparison to competitive tapes after 14 days of UV exposure

3M™ Tape UV14
Clean removal
and colour
fastness.

Competitor A
Colour loss,
product integrity
loss resulting
in tearing and
difficult to
remove.

Competitor B
Colour loss
and adhesive
residue left
behind.

3M™ 14-Day Industrial Multi-Surface Industrial Masking Tape UV14

This multi-surface, short-term masking tape goes on quickly and removes cleanly – even when exposed to sunlight for 14 days!

Tape rolls come shrink wrapped and individually labelled, available in bulk quantities for high volume usage

Priced right for everyday applications. Another great Go-to tape from 3M.

Competitive Performance Comparison

Metric	3M UV14	Competitor A	Competitor B	Performance
UV Resistance	●	○	◐	● Excellent ◐ Good ◑ Average ○ Poor ○ Very Poor
Clean removal from multiple surfaces	●	●	◐	
Easy to unwind	●	○	○	
Slivering	●	●	◐
