

3M Cleaning & Workplace Safety

3M™ Safety-Walk™ Anti-slip Peelable Floor Coating

Safer floors Safer People

Improving floor safety with a floor coating combining anti-slip properties with peelable removability

3M™ Safety-Walk™ Peelable Coating 3500 has been developed by 3M Australia to help improve floor safety.

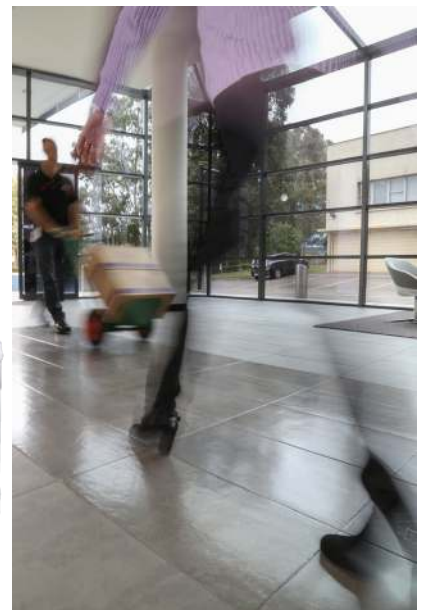

Features

- Meets Wet Slip Resistance (35+ BPN) to AS 4586-2013 standards¹
- Meets Dry Slip Resistance (0.6+ COF)¹
- Peelable. When it needs to be replaced – it simply peels off and the floor is instantly available to re-coat.
- Easy to apply
- Water based with no harmful odour
- Conforms to grout lines
- Minimal reduction to floor gloss and clarity
- Easy to clean
- Patch repairable
- Does not require water in application or removal
- Advanced surface protection
- Globally patented technology

Application Areas

Ideal for commercial building floors in high risk, slippery areas including:

- Entrance ways
- Bathroom access-ways
- Service corridors
- Bathroom wash basin areas
- Staff rooms / kitchen areas²

¹ At time of application.

² Not suitable for commercial kitchens serving > 100 meals a day

Important Notice to Users

Product Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user must evaluate and determine whether the products are suitable for their intended application. Limitation of liability: To the extent permitted by law, 3M shall not be liable for any loss or damage including any loss of business, loss of profit, or for any indirect, special, incidental or consequential loss or damage arising from the 3M product.
