

3M hIPA 300 Cleaner

Versatile industrial cleaning solutions in a convenient aerosol form. Ideal for cleaning heavily contaminated surfaces prior to bonding, including the removal of grease, oil, adhesive residue, dirt and dust.

An isopropyl alcohol (IPA) spray recommended to ensure surfaces are free from light contaminants, such as fingerprints and dust, prior to application of 3M tapes and adhesives, particularly 3M VHB Tapes.

- Made in Australia
- Leaves no residue
- Ideal for surface preparation and cleaning for 3M VHB.
- User friendly IPA base
- Compatible with most substrates.
- Surface Preparation and Cleaning for Commercial Graphic Films.
- General purpose surface cleaner.
